TT Table Tracker

DELIVER FOOD FASTER

Table Tracker is a table location system that identifies where guests are sitting so you can deliver food faster.

Grow your business with Table Tracker

Fast casual restaurants understand the importance of delivering food quickly. Table Tracker helps restaurants deliver a better experience and operate more efficiently.

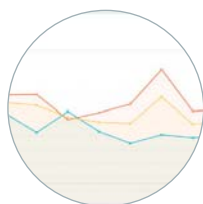

Faster Food Delivery

Provide the experience customers demand. Faster food delivery means fresher food and worry-free guests.

Enhanced Productivity

Give your employees the tools they need to succeed. Be smarter about staffing and scheduling.

Analytics & Reporting

Measure delivery times to identify pain points and improve your operation and performance.

“The staff absolutely loves Table Tracker. It’s very easy to understand and operate, and it makes their jobs easier.”

On Cue

GUEST MANAGEMENT

A complete solution to waitlist management that offers the flexibility customers want and the simplicity restaurants need.

Simplify Operations

A better guest experience begins with catering to customer preferences. A simple guest wait list solution helps start that experience off right. LRS' intuitive waitlist tool is the only solution that consolidates two notification options into one application. Customers can choose to be notified with the familiar LRS guest pager, or via text on their mobile phone.

Easiest App to Use

Handle any volume of customers with On Cue's simple entry system. Get customers on the waitlist quickly with ease.

Options for Your Guest

Guests appreciate having the option to be notified via text or pager.

Simple Staff Paging

Control the chaos. Notify servers and managers when needed in the kitchen, bar, or other areas.

"We saw immediate return on investment from the LRS paging/cell phone system."

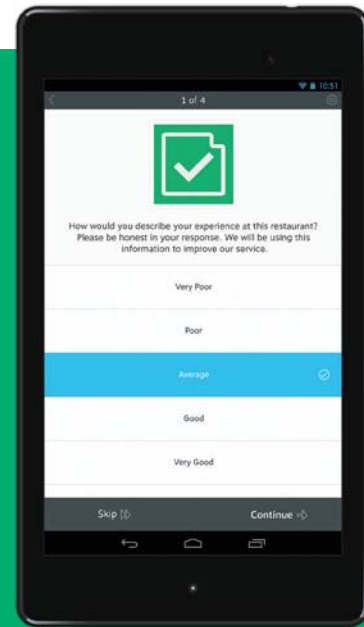

Hal Rundell | Project Manager
Bravo Brio Restaurant Group

Check Point

GUEST SURVEYS

Easily and instantly collect on-site customer feedback that you can respond to immediately.

Simple, Affordable Survey Solution

Check Point surveys offer businesses an easy way to evaluate customer issues, gather immediate feedback, and track results over time. You'll know immediately what's working and what's not with authentic responses to the experience the customer just had.

Easy to Use

Provide guests an engaging tablet-based survey to measure customer satisfaction or gather feedback on new product ideas.

Respond Immediately

Real-time notification gives managers the option to respond before customers leave. Ideal for greeting first-time customers or responding to negative responses.

Analytics & Reporting

Measure customer satisfaction over time and across locations to identify trends and improve service levels.

RESTAURANT & GRILL

"Rather than venting on social media, customers feel like the establishment is on top of things and cares about their feedback."
